

ACCREDITED EDUCATION PROVIDER

INFORMATION BOOKLET

Optimizing Enterprise Processes

## UNLIMITED REVENUE STREAM

You will be able to provide EM services and training across all industries including government clients, based on your AEP's license, and our brand, references, templates, tools and online

## ACCESS TO ONLINE MARKETING MATERIALS

You will have access to all our online marketing materials and analytic tools to promote and grow your business, increase market share and revenue stream

## ACCESS TO POOL OF EM TRAINERS

You will have access to pool of Primose accredited PM trainers, consultants, and professionals with over 20 years of experience and exposure to enterprise management and analytics across various industries around the world

## WHAT YOU NEED TO BECOME AN AEP

You require a registered business name/corporation in good standing. This may be in any country or market of your choice.

You will need to provide us with brief background summary of your business profile, resume, skill and/or specialization with references.

An office facility complete with administrative capabilities which include telephone, fax, and internet access.

Access to a training facility that can comfortably accommodate 30 people. IEMA will have to approve the training center.

Sign An AEP License Agreement with IEMA.

## IEMA LICENSES, SUPPORT AND MANAGEMENT

IEMA licensing and Partner Programs are structured to provide you with the maximum level of support based on your contribution and commitment, business model, markets served and location of business. When combined, these factors create your overall program benefits and a win-win situation for both of us

## AEP LICENSING TYPES AND COVERAGE

All prospective AEP's have options to select their desired licensing types depending on their capabilities, location and infrastructures. We have these licenses:

National License— This covers the entire country

Regional Licenses— This covers the EMEA Countries

Global License— This covers the entire world

Our institute is built on professionalism and collaboration with individuals and organizations that have our kind of vision and together we set the tone, break new grounds and attain our common Objectives. At IEMA we provide holders of its credentials environment for excellence, quality, standards, latest techniques and updates on industry information and opportunity for professional development. We partner with key players in all industry to establish and implement best practices and commitment to excellence in the delivery of optimized techniques required for increased operational performance.

**Join us today, become and accredited education provider. We have limited spaces left.**
